GOVERNMENT-WIDE ACQUISITION CONTRACTS

CIO-CS is a \$20 billion, 10-year, Government-Wide Acquisition Contract (GWAC) for IT commodities/solutions that can be used by any federal civilian or DoD agency to fulfill mission critical requirements while meeting their socioeconomic goals. All awardees are OEMs or VARs with capabilities for on-site and cloud solutions.

everything ITSM

Scope: CIO-CS covers **everything ITSM** including commodities and commodity-enabling solutions on-site or in the cloud. These include hardware and software, deployment and installation, maintenance and training, enterprise licenses and extended warranties, engineering studies, cloud, mobility, collaboration tools, web and video-conferencing, cyber security, virtualization, health and biomedical IT and more.

Quality: NITAAC contract holders are rigorously vetted prior to award so you are assured of the highest quality responses. All awardees are Original Equipment Manufacturers (OEMs) and Value Added Resellers (VARs) to further assure quality and security. An experienced team of Contracting Officers and IT Specialists are standing by to respond to your questions within 1 hour.

Ease: End-to-end management is easy with NITAAC's secure, web-based electronic-Government Ordering System (e-GOS), that automates delivery order competition, awardee selection and notification. The contracting process is completely controlled by your agency's procuring CO, who can easily add customized terms and conditions at the delivery order level.

Value: Best available ceiling prices are negotiated at the master contract level, and delivery order competition drives prices even lower. You also benefit from value-added services like complimentary requirement assessments returned within 24 hours, and free training worth two continuous learning points available on-site, in the classroom or via WebEx.

Speed: Streamlined ordering and procedures under FAR subpart 16.505 save your agency time, money and resources. Synopsizing or posting on FedBizOpps is not required. The contract is flexible in support of Agile development and CONUS/OCONUS procurements.

SB = SMALL • 8(a) = 8(a) • SDVOSB = SERVICE DISABLED VETERAN OWNED
 • HZ = HUBZONE • WOSB = WOMAN OWNED SMALL BUSINESS
 • EDWOSB = ECONOMICALLY DISADVANTAGED WOMAN OWNED SMALL BUSINESS

IT requirements are competed within a quality group of industry leading OEM and VAR innovators, vetted for their technical capabilities and expertise through a rigorous source selection process. A full compliment of set asides are also available to help meet your small business goals.
